

Recycle your small electronics at *Cool Brains!* and save wildlife!

Did you know that recycling gadgets, like phones and tablets, saves animals by reusing metals, which reduces the need for mining in **gorilla, okapi, jaguar, and flamingo** homes? Recycling also keeps devices out of landfills, protecting groundwater and habitat for local wildlife, like **monarch butterflies**.

Swing into action with us and recycle your devices at Cool Brains! on March 29th. Proceeds from recycling go to our gorilla conservation partners in the Congo River Basin.

Swing by the Houston Zoo's table on your way into the event to drop off your devices and learn more!

ACCEPTED DEVICES:

- Cell phones
- iPads/Tablets
- iPods/mp3 players
- GPS/AirTags
- Smartwatches
- AirPods/Earbuds
- Small gaming devices
- Digital cameras
